

PRESS RELEASE

WMOTO RT3 OFFERS ADVANCE SPECIFICATIONS, SMART KEY SYSTEM FOR ONLY RM15,188

PENANG, 14 MARCH 2021 - WMoto has launched a new scooter segment model through WMoto's Facebook Live, the RT3, which now comes with various advanced features that will surely meet every need of the scooters fans in Malaysia.

WMoto RT3 provides an exclusive and stylish design suitable for daily use. This scooter has the latest design and parts decorated with carbon fibre. This 247cc engine uses four valves supported by DOHC to deliver more power overall while offering maximum power of 23Hp at 8,000rpm and 22.5Nm of torque at 6,500rpm.

The most prominent main feature of the RT3 is it applies advanced leading keyless ignition to the scooter. This intelligent key system is easy to use to turn on or off the engine, open storage space, and fuel tank without having to remove the key from your pocket. It is more convenient and safer with this smart technology.

Compared to other brand scooters for the 250cc class, this Euro 4-certified scooter has a 17-liter fuel tank that is suitable for long journeys and avoid from frequency to refuel. This scooter that manufactured by MForce Bike Holdings Sdn. Bhd. has a telescopic-type front suspension and at the rear uses adjustable dual shock absorbers. The RT3 is further strengthened by using a high-quality Bosch brand ABS for front and rear brakes to improve rider safety.

This WMoto RT3 has wide under-saddle storage space to house a helmet, raincoat, and personal items. The storage space also completed with LED lights that can illuminate the space in the dark environment. Riders can also charge two phones simultaneously as this WMoto RT3 has two USB ports located in the front storage compartment. Not to forget, it is also equipped with blue backlit light on each control button located on both sides of handlebars as the indicators for you.

For preparation for any unexpected incident, WMoto has furnished this RT3 with adjustable side mirrors. It is based on automobile's design to ensure that there is no damage to the mirrors while parking. Besides, for extra comfort, RT3 is provided with an adjustable brake lever to your preference. This beautifully made scooter is equipped with 120/70 front and 140/60 rear tires for riding stability with effective grip. The riders' safety has always been our top priority, hence why this scooter is built with a non-slip seat cover to prevent you from sliding forward during the brake. In addition, a sporty portable frame grip is mounted on the WMoto RT3.

The speedometer display is also displayed in digital and analogue forms and provided with six colour options for the owner's display: red, purple, orange, blue, yellow, and white. This WMoto RT3 scooter is now available at all MForce authorized distributor premises with three exclusive colour options: Matte Grey, Glittery Blue, and Red with recommended selling price of RM15,188.00 (without road tax, insurance, and registration) with a two-year or 20,000 kilometres warranty (whichever comes first).

END
